Target version:			
Description			
Another strange warnings:			
<pre>WARN: event_handle_error:186: X error: request=CompositeNameWindowPixmap (major=152, minor=6, resource=2070c76), error=BadMatch WARN: event_handle_error:186: X error: request=FreePixmap (major=54, minor=0, resource=2c0041c), error=BadPixmap</pre>			
I try to add empty lines to the output to better see when messages appears, but without timestamps i cannot be 100% sure they came at the same time.
